

## K. C. BUSINESS BOOSTERS ARRIVE IN RAIN STORM

BUT THEY ENJOYED THE VISIT AND PARADED THE STREETS: GLAD HAND EXTENDED

The Kansas City commercial club came in on time yesterday afternoon and at 4:30 a hundred strong, marched behind their excellent military band from Union station to the Municipal Bath House. Every man in the line was decorated profusely with badges, medals, buttons and pennants and each carried a red, white and blue parasol.

A large delegation of Guthrie business men met them at the station and escorted them to the bath house, where they were briefly welcomed by Mayor Nisley and addressed at some length by John Golobie upon the wonders and merits of Guthrie's mineral waters and municipal bath house. Following this was a brief reception by the business men of the city after which the visitors were shown through the bath house. Most of them were very much surprised at the magnitude of the institution and many favorable comments were heard on Guthrie and Guthrie's enterprise. A heavy downpour of rain prevented the auto ride over the city but plenty of autos were on hand to take the visitors all back to their train which pulled out for the north at 5:15.

The entire party were highly pleased with their reception in this city and many new friends were made for Guthrie.

Call at 217 South First street.

**MCGRAW MEN GO INTO HARRIS CAMP AFTER SPLIT UP**

(CONTINUED FROM PAGE ONE)  
ing us is oily," said Alexander swing, a Harris delegate today. "But we will win when the matter is fully understood," he added. "The proposition hinges on a contested delegation from Stevens county. We had one majority without the contested delegation and the Stevens delegations were seated with one half vote each."

Several of the McGraw followers have deserted him and will go to Harris, it is said, which will insure the election finally of the convention floor of Harris.

Ferguson First to Balk.

Tom Ferguson, about the first McGraw man to begin to cut up, presumably because he was not assured in advance of his selection as chairman of the delegation or a place on one of the important committees. State Chairman Geissler also was in a rebellious frame of mind until he was assured of the preference of the

McGraw delegates for chairman. Ferguson announced that all he would stand for was the selection of a McGraw delegate on the committee on credentials which decisions will be made soon after the delegates reach the convention tomorrow.

He will be chairman on members of other committees in unsettled units Ferguson and the other McGraw delegates join the Harris forces in some sort of a frame up not yet known. Mike Lynch, another supposed to be McGraw man, is now in the Harris camp.

**Divided on Nominee.**

The Oklahoma delegation is also just as badly divided on a choice for president. Apparently Hughes will have more votes from Oklahoma than any other candidate with Weeks second and scattering votes for other candidates, with little or no hope of the delegation ever agreeing upon any one candidate until the matter is settled without Oklahoma having much voice in the matter.

**THEY'RE AT THE POST IN CHICAGO: THE RACE IS ON**

(CONTINUED FROM PAGE ONE)  
ago, that under no circumstances would Roosevelt support Hughes if he were nominated by the Republicans.

**Will Roosevelt Go to Chicago?**

It was suggested today, by some persons claiming political seership, that the arrival of Cortelyou from Oyster Bay, was the appearance of a silent advance agent, whose coming might preface that of Roosevelt, who might, it was said, come out of the east, as he did in 1912, to remake what was undone on that occasion.

**Will Put Plenty of Americanism in Platform.**

The committee on resolutions intends to give to the party declarations, such an advanced tone, that Roosevelt cannot help but support the ticket," said Senator Smoot. "The committee meet the Colonel's wishes in regard to preparedness and will make the pronouncement so strong he cannot afford to oppose any man placed in nomination."

**Roosevelt is Silent, Also.**

Oyster Bay, June 7.—Walter Roosevelt refrains from making any public statement, officially disclosing his real attitude toward the political situation at Chicago. It is well known that he is opposed to the nomination of Hughes and his relatives are confident in the belief that if Hughes is nominated Roosevelt will himself become a candidate.

**Hadley Will Stay at Home.**

Kansas City, June 7.—Ex-Governor Hadley is ill and will not go to Chicago. His condition is not serious, but is such that his physicians advise him not to make the trip.

**National Committee to Meet in Peace.**

Chicago, June 7.—The Republican National Committee held a brief session this morning.

Chairman Hilles declared the question of naming a harmony conference to meet a similar body representing the Progressive National Convention was not discussed.

**Ford Will Not Release Delegates.**

Detroit, Mich., June 7.—Henry Ford's secretary denied the report that Ford had notified the Michigan delegation they should vote for Hughes after they had voted for Ford on the first ballot. "Nothing to it. Ford is there to the end."

**Arkansas Wants Peace.**

Chicago, June 7.—The Arkansas Republicans and Progressives under took a program for harmony in their state today, when the delegations to the two national conventions held a joint caucus. It was agreed that each side should appoint a referee in addition to the national commissioners of the state, and that these four men should meet at 10 o'clock tonight.

The Arkansas Republican delegation has agreed to vote as a unit in the national convention of their party.

**Fields Goes on Recitations.**

Chicago, June 7.—The Oklahoma delegation caucused on the convention floor at noon and chose John Fields, as a member of the resolu-

tions committee. The choice of National Committeeman will be made later.

**Side Show Now Beginning.**

Who wants to take the vice presidential nomination?

"I do," is the hesitating reply of Charles W. Fairbanks.

"I do," is the unhesitating reply of former Senator Burket of Nebraska.

"I may, if it is forced upon me," is the observation of Gov. Hiram Johnson of California.

"He won't" is the unanimous shout of the Burton managers.

**Final Action in Balance.**

Nothing occurred today to indicate what the Republican convention is likely to do on the vice presidency. Fairbanks is willing to run with any candidate yet suggested or any held in reserve, so far as he is concerned, but his managers still insist he has a chance for the first place. As far as the Burket boom is concerned it has not hit Chicago with any impressiveness yet. Johnson is waiting for turnups on the presidential nomination before he will express himself.

A report that Burton will be chosen as the running mate for the Republican nominee, whoever he is, is being emphatically denied by the Burton managers, who assert their man isn't seeking the vice presidency. But when one enters the Burton headquarters the first boost or who greets him is sure to say: "Go over there and meet Will. He's a real governor and a real fellow."

And if the poor onlooker does go over to meet Will he wishes he had joined the Chanute-Pope-Kidder handshake club.

Willis hasn't thought about the vice presidency yet. He wants to be re-elected governor of Ohio and has hopes for bigger things. But Willis' friends are thinking of the place for him in case they can't persuade Burton to take it.

**Uncle Joe is Willing.**

His usual cigar tilted at its usual skyward angle, "Uncle Joe" Cannon came into town today, skirmished about for convention tickets for his friends, and then said:

"I don't know who the convention will nominate, but it could do a blamed sight worse than to pick me."

**ROOSEVELT IS SILENT, ALSO.**

Oyster Bay, June 7.—Walter Roosevelt refrains from making any public statement, officially disclosing his real attitude toward the political situation at Chicago. It is well known that he is opposed to the nomination of Hughes and his relatives are confident in the belief that if Hughes is nominated Roosevelt will himself become a candidate.

**Verdon Attack Slows Up.**

Around Verdon bad weather has set in and as a result the infantry of both sides have kept to their trenches and only bombardments have taken place. No new changes in positions are recorded. Around Vaux and Damoup, northeast of Verdon, the bombardment on both sides has continued with

**Austrians Advance.**

Venice reports that notwithstanding the sturdy resistance of the Italians, the Austrians have made further advance into Italy in the Cengio zone near Asiago. The town of Cesena and 500 prisoners, three cannon and eleven machine guns and 125 bomb throwers were captured by the Austrians.

**Rome Admits Retirement of the Italians.**

Rome admits the retirement of the Italians in the Cengio zone, but says that in the Dalgio valley, the Lagarina valley and on the Posina front Austrian attacks were repulsed with heavy losses.

**In southern Albania, in the region of Avlona, the Austrians have dispersed, with their artillery, Italian detachments operating in that vicinity.**

**Saloniki Occupied by Allies.**

London, June 7.—The entente allied troops have occupied the telegraph offices, the port and customs house at Saloniki, according to a Reuters dispatch from that city. At the same time they have taken extensive precautionary measures about the town to prevent possible opposition. The commanders of warships and the police have been relieved of their functions, and martial law has been proclaimed.

Another dispatch from Saloniki says the proclamation by General

## Prettiest Girl Weds

Mrs. "Winnie" Sheehan.

Broadway was started the other day to learn that Miss Kay Laurel, one of the prettiest girls the theatrical world has ever produced, has married in London Winfield R. Sheehan, manager of the Fox Film Corporation and former secretary of the New York police department. Broadway did not know popular "Winnie" Sheehan was more than an acquaintance of the beauty. Many artists have said Mrs. Sheehan was the most beautiful girl they have seen. For three years they have tried to paint her portrait,

considerable intensity, while to the west of the Meuse the shelling has been only intermittent.

On the remainder of the front in France, except around Ypres, the situation is reported quiet. About Ypres, however, the Germans and Canadians are continuing the violent fighting that has been in progress since last week, when the Germans, under a terrible rain of shells, captured Canadian positions which later were retaken in hand-to-hand and bombing encounters.

Returning to the attack Sunday, the Germans again forced the Canadians to relinquish the bulk of the recaptured ground, but the Canadians are disputing strenuously the efforts of the Tenth to oust them from the remainder of the positions.

**Austrians Advance.**

Venice reports that notwithstanding the sturdy resistance of the Italians, the Austrians have made further advance into Italy in the Cengio zone near Asiago. The town of Cesena and 500 prisoners, three cannon and eleven machine guns and 125 bomb throwers were captured by the Austrians.

## WORRY, GREAT DISTURBER OF DIGESTIVE ORGANS; CULTIVATE GOOD CHEER

Fear and worry are chiefly known as very unpleasant states of mind, and it is seldom realized, except by medical men, that they exercise a most profound influence on the health.

When the mind is anxious and disturbed, all the functions of the body go wrong. The digestive system is especially disordered, and this gives rise to what is known as auto-intoxication, an exceedingly common condition.

Auto-intoxication means the absorption into the blood of poisons formed in the body itself, and these have much the same effect as poisons taken in from outside. When the stomach sulks, these poisons are carried to the brain and nerves, with the result that the mind is dulled, the heart weakened, and the breathing disturbed.

If the anxiety and worry are not forcibly checked, things go from bad to worse, and the person falls into a condition of neurasthenia.

The cheerful person is rarely a victim of auto-intoxication. We should therefore make a habit of cultivating a cheerful, joyous state of mind. It is not always an easy task, but with constant trying the most dependent person may succeed in the end. Serenity of mind is natural to some, but all may cultivate it. It is claimed by good authorities that if one says to himself on rising in the morning, "I will be cheerful and happy today, no matter what may happen to irritate and depress me," and if he repeats that assurance to himself many times in the day, he will find that most of the inevitable worries are borne lightly.

At the end of the day his digestion and other functions will be in a healthy state and the next day's effort will be easier. And in the course of a few weeks, if this method is perseveringly followed, it is said almost complete control of the mind will be obtained, the trials of life will be borne with equanimity, the bodily functions will be strengthened, and the evils of auto-intoxication will be avoided.—L. D.

The people of Logan will make no mistake if they choose Mrs. Patterson to head the school system of the county.

She is qualified educationally, has good common sense and is peculiarly fitted temperamentally, to take charge of the schools of the county and run the office with satisfaction to all.

Mrs. Patterson intends to make a thorough canvass of the county. Give her the glad hand when she visits you.
